## Delivery Facts, Impact & Credibility (2025)

### Humanitarian Reach and Impact

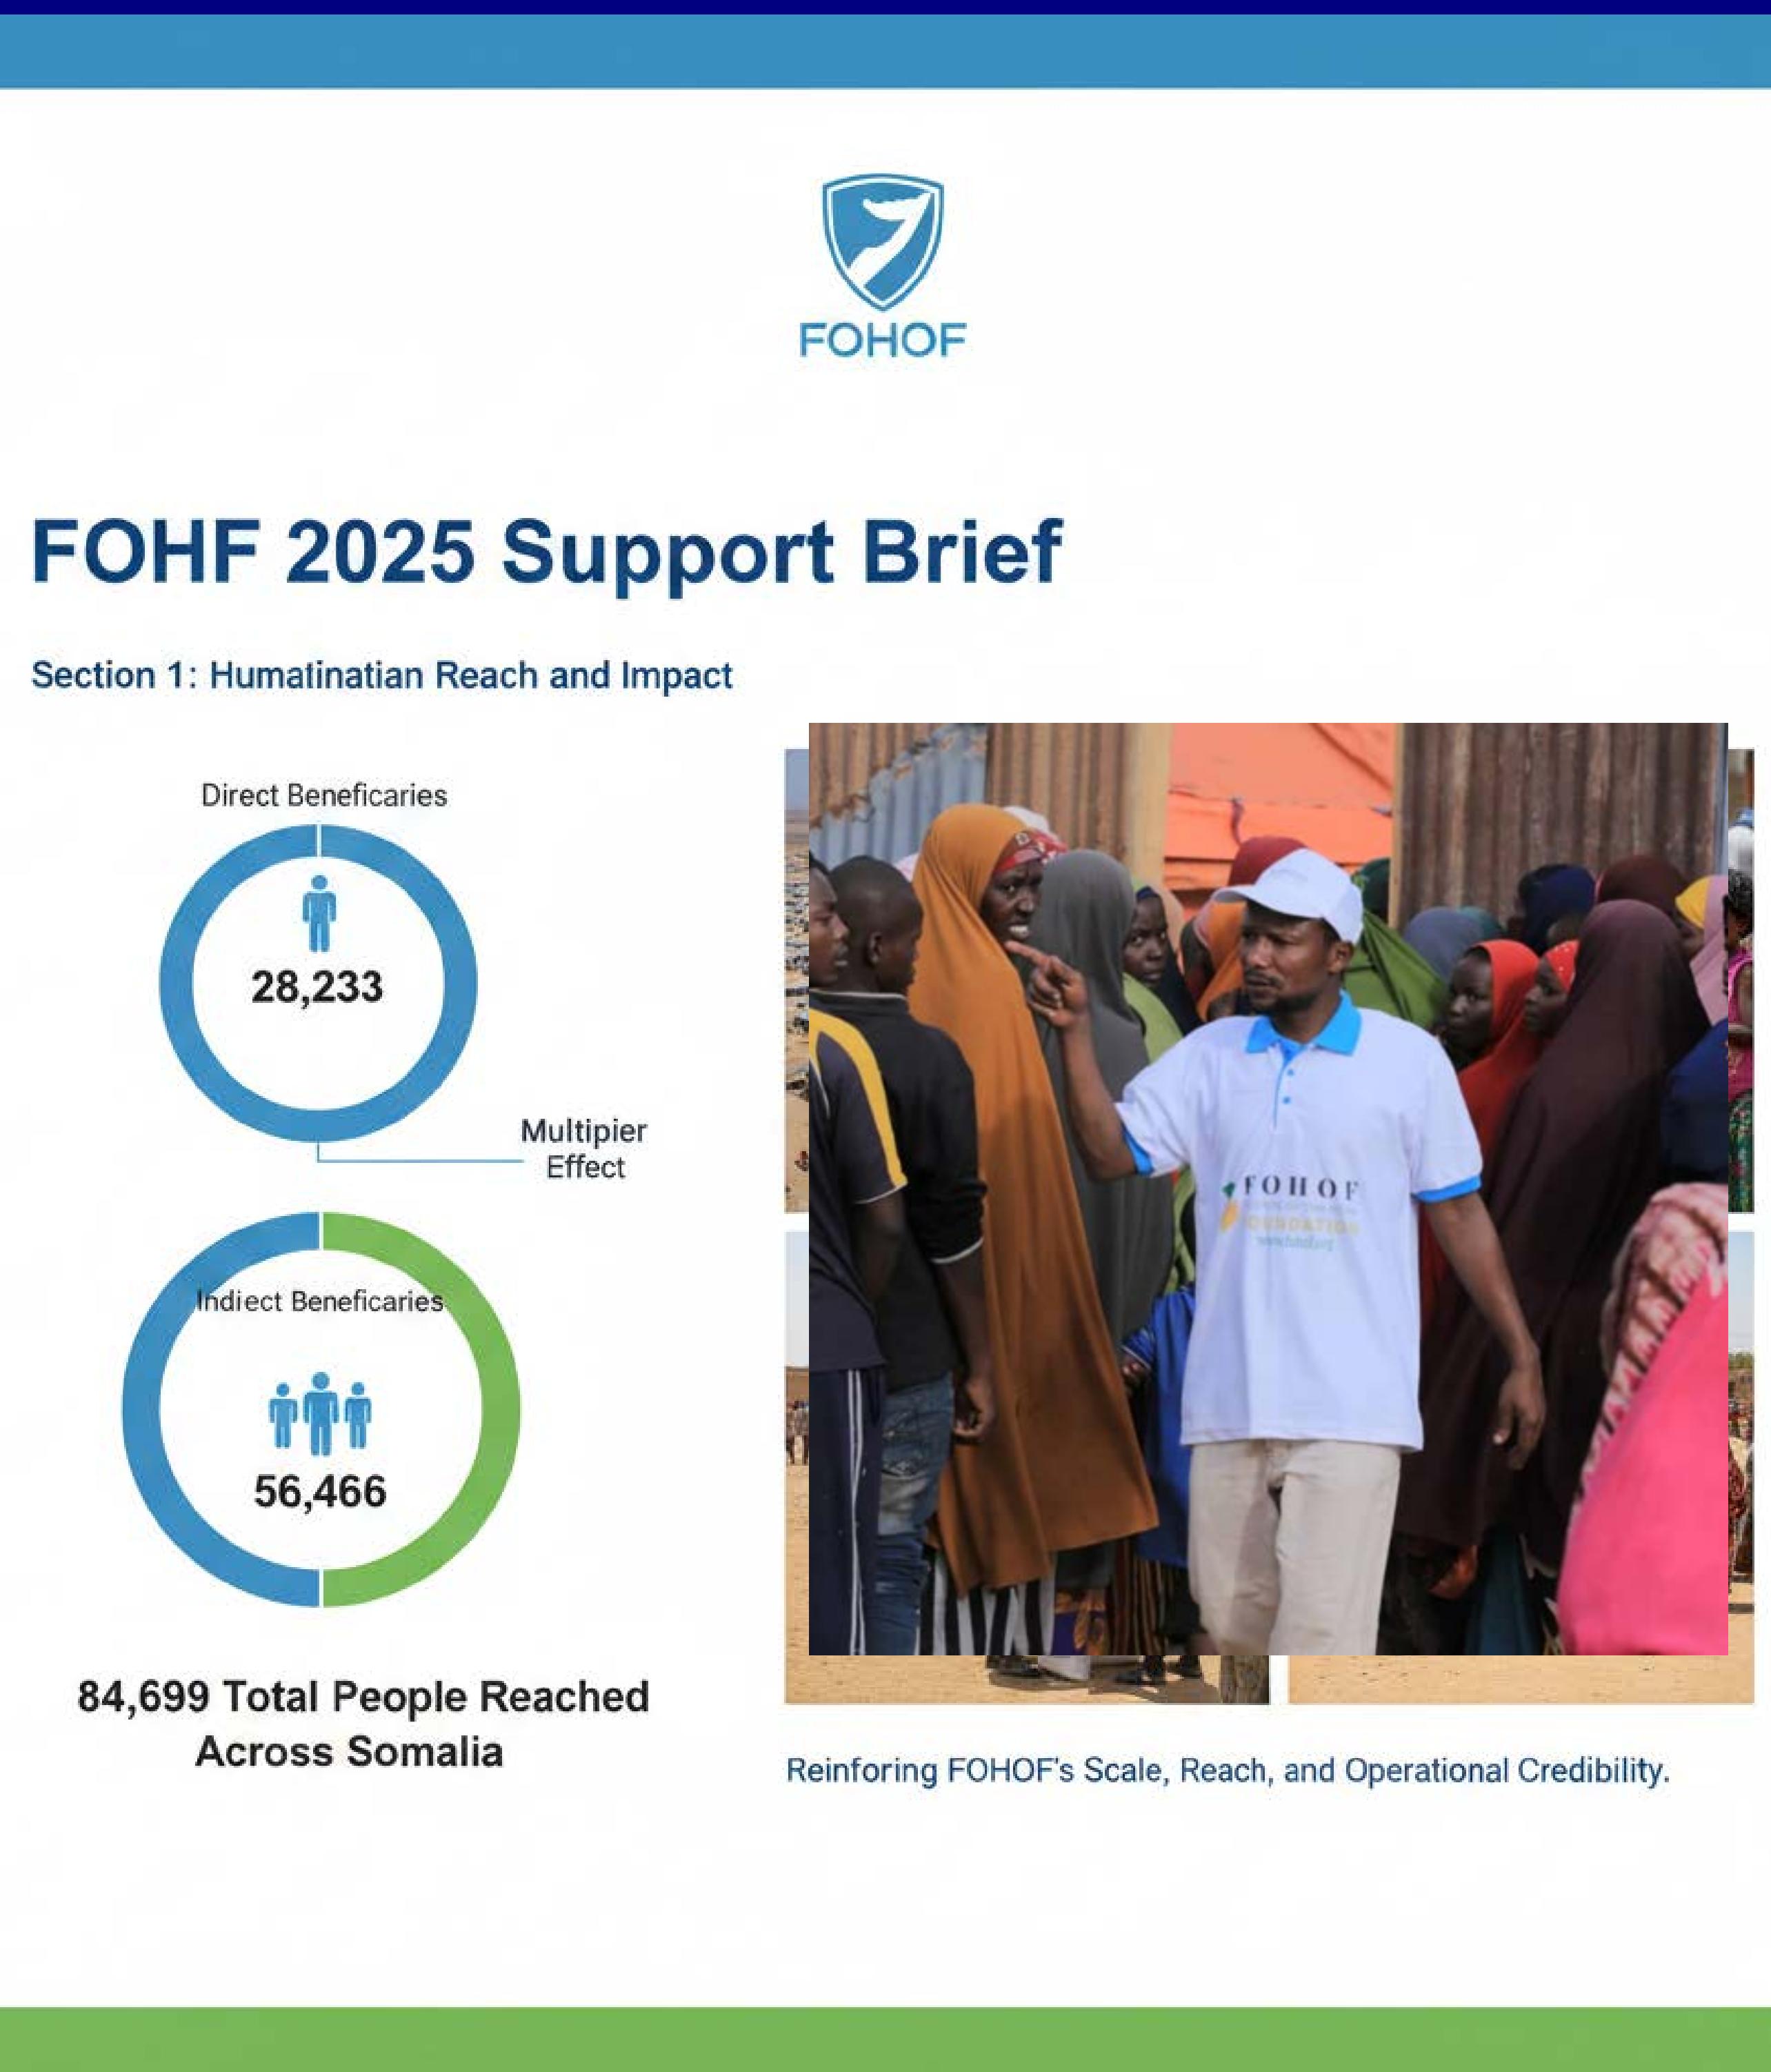

In 2025, Friends of the Horn Foundation (FOHOF) significantly impacted Somalia's most vulnerable populations, primarily those residing in Internally Displaced Persons (IDP) camps.

These communities face compounded risks from conflict, climate shocks, displacement, and limited access to essential services.

FOHOF's interventions focused on life-saving assistance, service delivery, and community support, with a particular focus on women, children, and displacement-affected households.

## Credibility

FOHOF's credibility is reinforced through international media recognition and UK government-accredited institutional trust.

Global Media Recognition:

FOHOF was the sole contributor for the Somalia segment of the Global Sky News report titled "Displaced by the Climate." Sky News explicitly acknowledges that all Somalia-specific footage, images, and video content featured in the report were provided by FOHOF's Somalia field team.

This recognition underscores FOHOF's:

Trusted access in high-risk environments

Professional documentation standards

International media credibility
