Find Your MP on this link (<https://www.parliament.uk/mps-lords-and-offices/mps/>)

Dear Rt. Hon. MP _____

Allow me to firstly congratulate you to represent me and my interests in the most prestigious Houses of Parliament in the world namely House of Commons.

Secondly I would officially like to request from you to publicly on my behalf raise a matter that is so tragic and worrisome to me and my community in the House of Commons.

According to the latest July 2019 publication from Office of National Statistics (ONS) *In the year ending March 2019, there were around 43,516 knife crime offence in England and Wales. This is an 80% increase from the low-point in the year 2014.*

KNIFE CRIME is in these days persistent in nature and continues in succession. This unfortunate crime affects not only involved youth but also a lot of families and the wider community

As my MP I would like you to (on my Behalf) bring the attention of this matter to the House of Commons, I would also be grateful if you could raise my concerns with the relevant Ministers.

Finally, being resident at your constituency I would like you to pledge your support to the campaign of this matter and where possible write to the media on my behalf.

PS: I understand that a copy of this letter is being sent to almost 99% of the MPs in the Houses of the UK Parliament, I hope and trust you will be the first MP to raise this important issue in one of the sessions of the House of Commons.

Thank you in advance for considering this as a matter of urgency.

Yours Sincerely
